PROFESSIONAL SUMMARY

Results-driven Full-Stack Developer with a B.E. in Electronics & Communication and a Diploma in Cyber Security. Experienced in shipping production-ready web applications using React, Django REST Framework, PostgreSQL, JWT authentication, and Razorpay integration. Former IT Trainer with proven ability to translate complex technical concepts for teams and stakeholders. Open to full-stack roles where end-to-end ownership, clean code, and reliable deployment matter.

CORE COMPETENCIES

● React 19	● Django 5	● DRF	● PostgreSQL
● JWT Auth	● REST APIs	● Docker	● Render
● Razorpay	● Cyber Security	● Git/GitHub	● SEO

TECHNICAL SKILLS

Languages	Python, JavaScript, Java, C, C++, SQL
Frontend	React 19, Vite, HTML5, CSS3, Tailwind CSS, Responsive UI
Backend	Django 5, Django REST Framework, JWT, REST APIs
Database	PostgreSQL, SQLite, SQL, JDBC
DevOps	Git, GitHub, Docker, Render, Postman, CI-ready workflows
Security	Cyber Security, Network Security Basics, Secure Coding

FEATURED PROJECT

ShopHub — Full-Stack E-Commerce Platform

Personal Project · Live

React · Django · PostgreSQL · JWT · Razorpay · Docker · Render · ecommerce-frontend-t6mn.onrender.com

- Delivered a production e-commerce platform with 21+ products, search, filters, cart, wishlist, and order tracking.
- Built JWT authentication, password reset, profile management, and a seller admin hub for products and orders.
- Integrated Razorpay (UPI/Card) and Cash on Delivery with email notifications for new orders.
- Deployed full stack on Render using Docker, PostgreSQL, and environment-based configuration.

ADDITIONAL PROJECTS

Book Management System

Java · JDBC

- Desktop GUI with full CRUD operations and MySQL/SQL database connectivity.

PROFESSIONAL EXPERIENCE

IT Trainer

Cybergrow Institute, Indore

- Delivered training in C, C++, Java, Python, SQL, and introductory cyber security to programming batches.
- Designed lab exercises and guided students from fundamentals to mini-project completion.

IT Trainer

Laxora Tech Programming Institute, Indore

- Conducted programming classes, live coding sessions, and practical assignment support.
- Mentored learners in debugging, logic building, and interview preparation.

EDUCATION

Diploma in Cyber Security

Cybergrow Institute, Indore

B.E. — Electronics & Communication Engineering

IES IPS Academy, Indore · 2014

KEY STRENGTHS

End-to-end product delivery

Secure APIs & payment flows

Strong communication & training background

Fast learner with production focus
